

For you!

Volunteering is a rewarding experience and you will get to see the children enjoying the activities and events as they happen and know that you've helped to arrange these

It's flexible!

Whether you're a full-time parent or work 9-5, any time you can give is appreciated. Smaller jobs such as designing posters, collecting raffle donations or running a stall are all vital contributions to keep things running smoothly

Keep the PTA going!

As children move up to secondary school, committee members move on too. By joining the committee, you can help continue the provision of activities for your children

For the children!

Become a role model and let your child see how much you value their education - the events we hold improve your child's experience of school

Why join the PTA?

Make friends!

Meet and get to know families from other classes or year groups, many of us have formed lasting friendships through the PTA, which are invaluable in navigating the journey through school!

For the school!

School budgets only stretch so far - the funds we raise allow the children to benefit from additional experiences that enrich their education and by joining the PTA committee, you can have a voice when it comes to deciding what those funds are spent on

It's fun!

From accompanying the school trip to the panto to planning games for the Summer Fete, we aim to make every event enjoyable for all and we have fun doing it! We're a friendly bunch and would love you to join us!
